

Table of Contents

The TExES Exams: General Information	4
Suggestions for the Day of the Exam	5
Multiple-Choice Test-Taking Strategies	6
Strategies for the TExES	8
Learner-Centered Proficiencies	10
Cooperative Learning.....	11
Abbreviations and their Meanings	12
Bloom’s Taxonomy of Levels of Thinking	13
Code of Ethics and Standard Practices for Texas Educators	14
Field 115: Mathematics 4-8 Test Framework	16
Domain I – Number Concepts	27
Competency 1. Structure of Number Systems	27
Competency 2. Number Operations and Computational Algorithms	31
Competency 3. Number Theory	36
Domain II – Patterns and Algebra	41
Competency 4. Mathematical Reasoning.....	41
Competency 5. Linear Functions	46
Competency 6. Nonlinear Functions.....	52
Competency 7. Conceptual Foundations of Calculus Related to Middle School	62
Domain III – Geometry and Measurement	62
Competency 8. Measurement as a Process.....	65
Competency 9. Geometric Relationships and Axiomatic Structure of Euclidean Geometry.....	68
Competency 10. Properties of Two- and Three-Dimensional Figures.....	71
Competency 11. Graphical and Numerical Techniques.....	74
Domain IV – Probability and Statistics	79
Competency 12. Theory of Probability	78
Competency 13. Probability Theory	83
Competency 14. Relationship Among Probability Theory, Sampling and Statistical Inference.....	88
Domain V – Mathematical Processes and Perspectives	91
Competency 15. Mathematical Reasoning and Problem Solving	91
Competency 16. Mathematical Connections.....	95
Domain IV – Mathematical Learning, Instruction, and Assessment	98
Competency 17. Developing Mathematical Skills, Procedures, and Concepts	98
Competency 18. Planning, Organizing, and Implementing Instruction Using TEKS	100
Competency 19. Assessment.....	104
Sample Problems	109
Answers to Sample Problems	119
References.....	120
Glossary	122
Vocabulary Cards.....	134
