

## Table of Contents

|  |     |
|--|-----|
| Suggestions for the Day of the Exam .....                              | 4   |
| Multiple Choice Test Taking Strategies .....                           | 5   |
| Strategies for the TExES.....  | 7   |
| The TExES Exams – General Information .....                            | 9   |
| Learner-Centered Proficiencies .....                                   | 10  |
| Cooperative Learning.....  | 11  |
| Bloom’s Taxonomy of Levels of Thinking .....                           | 12  |
| Abbreviations and Their Meanings.....                                  | 13  |
| Code of Ethics and Standard Practices for Texas Educators .....        | 14  |
| Field 116: Science 4-8 Test Framework .....                            | 16  |
| Domains and Competencies.....  | 18  |
| Domain I – Scientific Inquiry and Processes.....                       | 28  |
| Managing Learning Activities for Safety .....                          | 28  |
| Correct Use of Tools, Materials, Equipment, and Technologies.....      | 30  |
| Process of Scientific Inquiry and History and Nature of Science.....   | 35  |
| Science and Its Impact on Daily Life.....                              | 40  |
| Unifying Concepts and Processes.....                                   | 49  |
| Domain II – Physical Science.....                                      | 54  |
| Forces and Motion .....  | 54  |
| Physical Properties of and Changes in Matter .....                     | 57  |
| Chemical Properties of and Changes in Matter .....                     | 60  |
| Energy and Interactions Between Matter and Energy .....                | 65  |
| Energy Transformations and the Conservation of Matter and Energy ..... | 72  |
| Domain III – Life Science.....   | 76  |
| Structure and Function of Living Things.....                           | 76  |
| Reproduction and Mechanisms of Heredity .....                          | 83  |
| Adaptations of Organisms and the Theory of Evolution .....             | 86  |
| Regulatory Mechanisms and Behavior .....                               | 87  |
| Relationships Between organisms and the Environment.....               | 88  |
| Domain IV – Earth and Space Science.....                               | 92  |
| Structure and Function of Earth Systems.....                           | 92  |
| Cycles in Earth Systems.....   | 96  |
| Energy in Weather and Climate.....                                     | 98  |
| Characteristics of the Solar System and the Universe .....             | 100 |
| The History of the Earth System.....                                   | 103 |
| Domain V – Science Learning, Instruction, and Assessment.....          | 107 |
| Teaching Science and How Students Learn Science .....                  | 107 |
| Scientific Inquiry .....   | 111 |
| Assessment.....  | 114 |
| Sample Problems .....  | 118 |
| Answers to Sample Problems .....                                       | 126 |
| References.....  | 127 |
| Glossary .....   | 130 |
